COMPANY BACKGROUND

A custom swimming pool is a lasting investment in relaxation and beauty, tailored to suit your family's lifestyle and desires. Whether you envision a serene backyard retreat or a luxurious aquatic escape, pools come in all shapes and sizes to fit a range of preferences and budgets. At Duplessis Builders, we recognize that every homeowner has a unique vision. With our expertise in designing custom gunite pools, we provide the flexibility needed to craft a pool that reflects your personal style. Our team is dedicated to making your pool dreams a reality, adding both charm and value to your home.

Here are just a few reasons to choose Duplessis Builders to help turn your backyard into the outdoor oasis you've always dreamed of.

PERSONALIZED SERVICE

At Duplessis Builders, one of the most frequent compliments we receive is on our exceptional customer service. With us, you're more than just a client—you're a valued partner in bringing your outdoor vision to life. From the first step of construction to the final details, our dedicated team emphasizes clear communication and customized solutions, ensuring your pool embodies your unique style and needs. With our personalized approach, you can feel confident that your vision will come to life with meticulous care, making the journey of building your pool as enjoyable as the years of relaxation it will provide.

QUALITY

Our unwavering commitment to excellence shines through in every project we undertake. By partnering exclusively with industry-leading suppliers, we ensure that only the highest quality materials are used, guaranteeing not only durability and functionality but also exceptional aesthetic appeal. Our dedication to client satisfaction extends well beyond project completion, as we proudly offer the best warranty in the industry. With Duplessis Builders, you can trust in the lasting quality and performance of your investment, backed by our promise of unparalleled quality and service excellence.

EXECUTION

Through the years, we have refined a project management system built on meticulous processes and procedures. From digital 3D designs to stringent quality control, our streamlined approach allows us to complete projects in an average of just 8 weeks—from the first excavation to your first moment of relaxation.

10 REASONS TO CHOOSE DUPLESSIS BUILDERS

At Duplessis Builders we believe that keeping up with industry standards as well as consulting education is of utmost importance. Therefore, our staff members attend annual trainings.

01

Duplessis Builders holds a \$2 million general liability policy and worker's compensation policy for complete project security.

02

Duplessis Builders mandates all subcontractors hold a \$1 million general liability policy and worker's compensation.

03

Duplessis Builders is a proud member of the Pool and Hot Tub Alliance.

04

We confidently maintain an A+ rating with the Better Business Bureau.

05

Our business office and showroom are conveniently located at 14663 Airline Hwy, Suite 102, Gonzales, LA 70737

06

We have an extensive referral contact list upon request.

07

Our company offers a true lifetime structural warranty on the structure of your swimming pool. As well as a 10-year workmanship warranty.

08

Duplessis Builders provides an exclusive "Pool School" program after completing your new swimming pool.

09

Our company website is www.duplessisbuilders.net.

10

We have a team of specialized professionals that will provide unmatched first class customer service! See Page 4 for our meet the team!

The “DB” Difference

Our Workmanship Guarantee

At Duplessis Builders, we handle every part of your project in-house, ensuring quality at every step—no subcontractors involved. Our commitment is backed by a 10-year workmanship warranty for lasting peace of mind.

LED Color Changing Lights

Every pool we quote includes energy-efficient, color-changing LED lights, providing vibrant illumination while saving up to 86% on energy costs. Enjoy a beautifully lit pool that’s both stunning and sustainable.

Bubblers On Tanning Ledge

Our pools feature standard bubblers on the tanning ledge, enhancing water circulation and adding a beautiful visual effect. This creates a refreshing, eye-catching feature that elevates your pool’s design and efficiency.

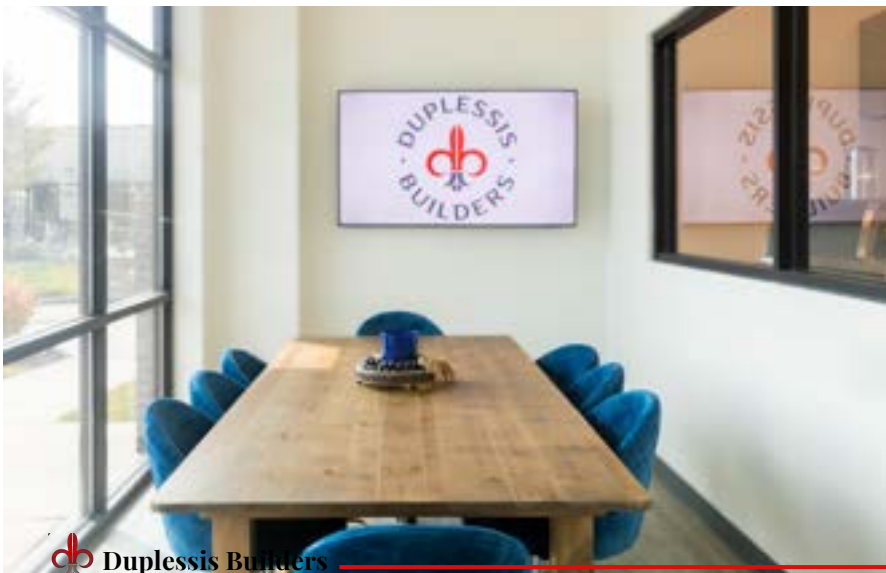

Glass Tile

We include glass tile in every pool quote from the start, offering enhanced visual appeal without needing costly upgrades later. This ensures a stunning, high-quality finish right from the beginning.

Mini-Pebble Plaster

Our base plaster is premium mini pebble, offering durability, comfort, and visual appeal. Its smooth texture and natural look create a welcoming oasis, backed by a limited lifetime warranty for lasting quality.

DUPLESSIS BUILDERS WARRANTY

Duplessis Builders (DB) guarantees that the pool structure will remain structurally sound for as long as the contracted party owns the pool. "Structurally sound" means the pool will hold and retain water. If the structure fails to do so, DB will repair it within this period to ensure water retention. Should repairs impact tile, coping, or plaster finishes, these will be fixed at no additional cost. For plaster areas where matching the original color is challenging due to normal usage discoloration, DB will patch as closely to the original color as possible.

Product	Warranty
Gunitite Shell	Limited Lifetime
Pebble Plaster Finish	Limited Lifetime
Heater	3 years
Coping	10 years
Integral Parts	3 years
Skimmers	10 years
Pool Controls	3 years
Tile	10 years
Filter	3 years

10 QUESTIONS TO ASK OTHER POOL BUILDERS

At Duplessis Builders we understand that building a pool is a big decision and like any major purchase we know you will be looking for and comparing several builders. Therefore, we have included a few key questions to ask other potential builders.

01

Do you carry
general liability
insurance?

02

Are all your sub-
contractors
insured?

03

Is your company a
member of the
Pool and Hot Tub
Alliance (PHTA)?

04

Is your company a
member of the
Better Business
Bureau?

05

Do you have an
office with a
showroom?

06

Do you have a
referral list?

07

Does your
company offer a
lifetime warranty?

08

Do you offer
maintenance
training after the
pool is complete?

09

Does your
company have a
website?

10

Does your company have its own specialized team?

THE GREAT DEBATE

SALT

VS

CHLORINE

MAINTENANCE

Less frequent chlorine additions; moderate cell cleaning.

MAINTENANCE

Regular chlorine additions; more frequent testing.

COST

Higher initial cost, but lower ongoing costs.

COST

Lower setup cost, consistent chemical costs.

DURABILITY

May corrode metal parts over time.

DURABILITY

Less corrosion risk, but needs balanced levels.

COMFORT

Softer, gentler on skin and eyes.

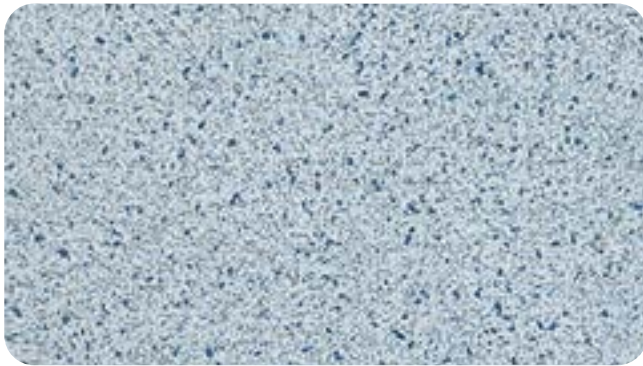

COMFORT

Potentially irritating if levels fluctuate.

Building a gunite pool in just 30 days is not feasible due to the essential curing period required for the gunite material. Ideally, gunite needs a full 28 days to cure properly, allowing it to harden and develop the strength necessary to support the pool's structure. Rushing this process can create serious structural weaknesses, leading to cracks or poor adhesion that could result in costly repairs. Furthermore, the construction of a gunite pool involves several critical stages, including excavation, plumbing, gunite application, and ultimately plastering, with each stage depending on the stability and success of the previous one. Additionally, environmental conditions like temperature and humidity can affect the curing process, potentially extending the needed time beyond 30 days. To ensure the durability and integrity of the pool, each phase must be allowed to complete properly, emphasizing that a hurried timeline compromises the quality and long-term stability of the finished product.

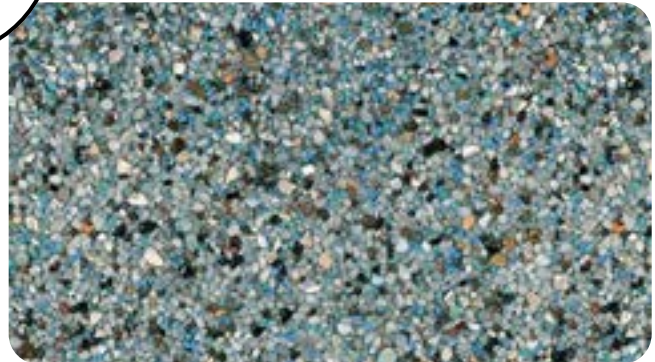

THE FINISH LINE

THIS...

QuartzScapes plaster may not be the best choice for a long-lasting, comfortable pool finish. We cover it for one-year, which is relatively short, hinting at potential durability issues. Many users report streaking and visible imperfections over time, which can detract from the pool's appearance. Additionally, QuartzScapes has a rougher texture that can be uncomfortable on the feet, making it less inviting than smoother options. These factors make it worth considering alternatives that offer greater durability, a smoother feel, and longer warranty coverage for a more enjoyable pool experience.

OR

THAT

Mini pebble plaster is an excellent choice for a durable, comfortable, and visually appealing pool finish. With a limited lifetime warranty, it offers exceptional peace of mind, reflecting its long-lasting quality and resistance to wear. The smoother texture of mini pebble plaster makes it more comfortable on the feet compared to coarser finishes, enhancing the overall swimming experience. Its unique composition also helps to hide minor imperfections, keeping your pool looking pristine over time. Plus, the natural aesthetic of mini pebbles creates a cooler, more inviting appearance, transforming your pool into a beautiful, enduring oasis.

CONSTRUCTION BEGINS

POOL CONSTRUCTION CENTERED AROUND YOU

At Duplessis Builders, we believe the pool construction process should be efficient, collaborative, and fully focused on you. Your vision for your pool is our priority, and we're here to bring it to life.

We begin with open communication, ensuring no surprises along the way. From design to planning and construction, we work hand-in-hand with our clients at each stage. Below, we've outlined key project steps and what you can expect during each phase of bringing your custom pool to life.

DESIGNING YOUR DUPLESSIS BUILDERS POOL

After one of our skilled design team members meets with you and your family to take precise measurements of your backyard, they'll begin crafting a custom 3D pool design. Each design is tailored to meet your family's needs, expectations, and chosen water features, bringing your vision for the perfect backyard space to life.

Once the 3D design is complete, our designer will provide you with a 3D rendering to confirm that every item on your wish list has been incorporated.

When the design aligns with your vision and expectations, we'll invite you to our showroom to discuss project details, explore material options, and review a detailed cost analysis.

PHASES OF

POOL CONSTRUCTION

LAYOUT

- POOL AND COMPONENT LOCATIONS ARE STAKED AND PRECISELY MAPPED.

DIG, TIE, PLUMB (DTP)

- HEAVY MACHINERY EXCAVATES THE POOL CAVITY AND SHAPES THE SURROUNDING LANDSCAPE.
- THE ESSENTIAL EARTHEN FORM IS CAREFULLY SCULPTED.
- THE STEEL REINFORCEMENT FRAMEWORK IS CONSTRUCTED AND PREPPED FOR FULL CONCRETE ENCASEMENT.
- WATER CIRCULATION COMPONENTS AND LIGHT NICHES ARE INSTALLED.
- EQUIPMENT SPACING MEASUREMENTS ARE CHECKED AND VERIFIED.

GUNITE APPLICATION

- SKILLED GUNITE TECHNICIANS PNEUMATICALLY APPLY CONCRETE, CREATING A MONOLITHIC STRUCTURE FOR MAXIMUM DURABILITY. DURING THIS PROCESS, FINISHERS SHAPE THE POOL TO ITS EXACT FINAL SIZE AND FORM.

TILE AND COPING

- THE SURFACE IS THOROUGHLY CLEANED OF ANY LOOSE MATERIAL, AND WATERPROOFING IS APPLIED.
- THE TILE CREW PREPARES THE SURFACE, ENSURING IT IS SQUARE, LEVEL, AND PLUMB.
- TILE IS THEN INSTALLED AROUND THE PERIMETERS OF THE POOL AND SPA.

DECKING

- RETAINING WALLS AND HARDSCAPES ARE INSTALLED WITH PRECISION AND CAREFULLY MONITORED TO ENSURE LASTING DURABILITY AND ACCURACY.

PHASES OF

POOL CONSTRUCTION CONTINUED....

EQUIPMENT INSTALLATION

- THE FILTERS, HEATER, AND MECHANICAL POOL EQUIPMENT ARE SET UP AND INSTALLED.

PLASTER

- PRIOR TO PLASTERING, THE POOL IS THOROUGHLY CLEANED OF ANY LOOSE DEBRIS AND WATERPROOFED.
- ON PLASTER DAY, PLASTER IS APPLIED AND HAND-TROWELED, WITH THE AGGREGATE THEN EXPOSED TO SHOWCASE THE VIBRANT NEW PLASTER COLOR.

FENCING AND LANDSCAPING

- FINAL TOUCHES, INCLUDING FENCING, LANDSCAPING, LIGHTING, AND OTHER DETAILS, ARE ADDED TO COMPLETE THE PROJECT.

START UP AND TRAINING

- YOU'LL RECEIVE A BINDER CONTAINING MAINTENANCE GUIDES, ESSENTIAL TRAINING MATERIALS, AND REFERENCE INFORMATION.
- A POOL SPECIALIST WILL CONDUCT TRAINING AND INITIATE THE STARTUP OF YOUR BRAND-NEW DREAM POOL.

ENJOY YOUR NEW POOL!

POOL CONSTRUCTION CENTERED AROUND YOU

LAYOUT

Once you've approved and signed off on your construction plans, and we have submitted them for any required city and HOA approvals, a member of our construction team will reach out to schedule a layout meeting at your home. During this meeting, we will mark the perimeter of your pool according to the specifications in your approved construction plan. The project manager will use stakes, strings, and spray paint to outline your pool, marking it about 12 inches larger than the waterline to allow for the thickness of the concrete gunite shell.

At this stage, we will submit an 811 request to confirm the locations of any underground utilities. You will be contacted by utility companies with lines on or near your property, such as electric, water, gas, cable, phone, Wi-Fi, and other communication providers.

When the layout is complete and we are fully certain there are no underground utilities in the excavation area, we will review the layout agreement with you, and you'll sign off on the necessary paperwork.

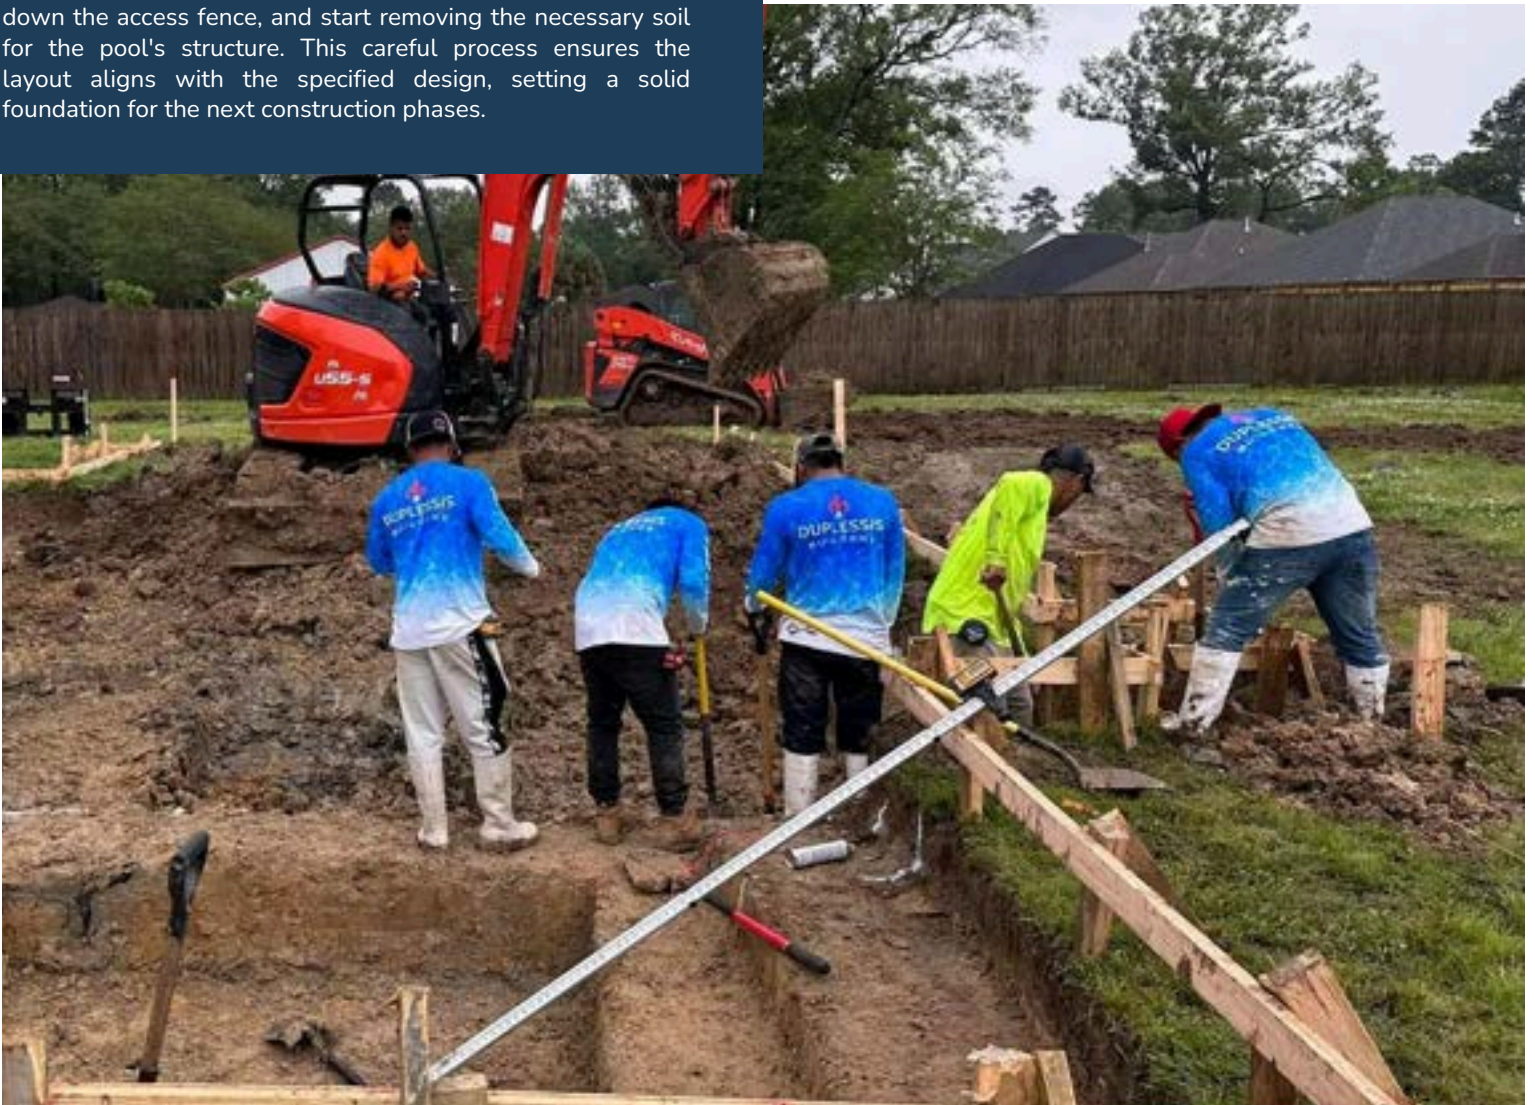

POOL CONSTRUCTION CENTERED AROUND YOU

EXCAVATION

Once the layout agreement is signed and verified for underground utility clearance, the excavation crew will reconfirm the swimming pool layout against the final construction plans. They will proceed to install the forms, take down the access fence, and start removing the necessary soil for the pool's structure. This careful process ensures the layout aligns with the specified design, setting a solid foundation for the next construction phases.

POOL CONSTRUCTION CENTERED AROUND YOU

STEEL AND PLUMBING

Once the pool has been excavated, the crew will start on the steel reinforcement and plumbing. They will excavate a trench ~18" deep and run all of the lines in the trench to the equipment pad. Here the lines will penetrate the soil and be pressurized to 30 psig until the pool equipment is set.

The lights will also be ran in the same trench as the conduit. Lights will be 1-1/2" pipe where they penetrate the shell and have duct tape over the end. Pressure pipe will have pipe caps.

Inspections will be scheduled once this stage is complete. This step can take several days, depending on the local inspections office.

POOL CONSTRUCTION CENTERED AROUND YOU

GUNITE INSTALLATION, WATERING, & SITE CLEAN-UP

Once the steel and plumbing have been installed, the pool will be sprayed with gunite. Gunite is a reinforced concrete mixture that will make up the shell of the pool. The day after the gunite has been installed you will need to begin watering the shell twice a day for seven consecutive days. During this time, the cleanup crew will remove any excess gunite, remove forms, and prepare your yard for grading.

TILE & COPING EXAMPLES

TILE & COPING

Now that the underground systems and equipment have been installed, the next phase of construction will be the installation of your tile and coping materials. This installation includes waterline tile, pool coping, and any other additional features, such as raised walls, etc., agreed upon in the plan and design.

Once the tile and coping installation is complete, your project manager will schedule a mid-construction walkthrough to discuss the current progress of your project. The project manager will review all phases that have been completed as well as the phases that remain to be completed. After this walkthrough, you will be asked to sign off on the mid-construction walkthrough paperwork.

POOL CONSTRUCTION CENTERED AROUND YOU

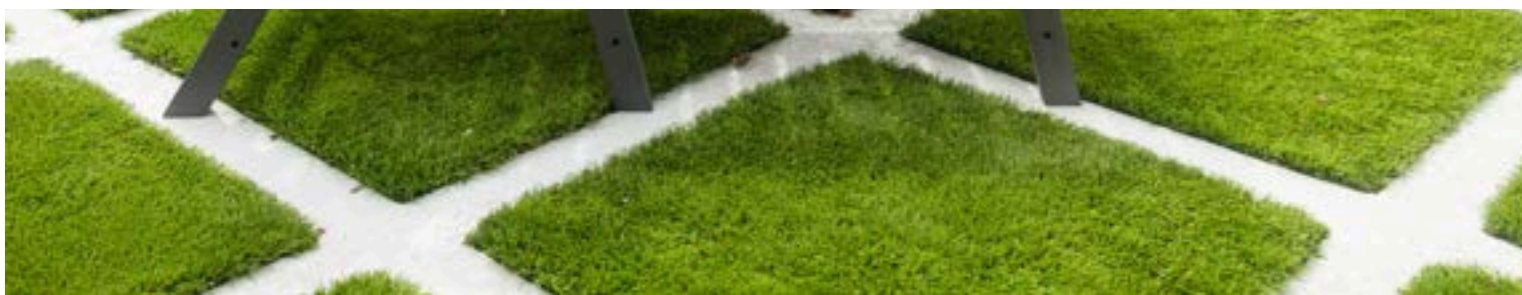

DECK FORM & INSTALLATION

Once the tile and coping installation has been completed, the next step in the construction process is deck installation. Deck forms will be installed in accordance with the construction plan and inspection will be conducted. Next, concrete or other decking material will be installed in compliance with the construction plan. Finally, pool deck finishes will be installed. Pool deck finishes include pavers, natural stone, stamped concrete, and cool decking.

Following the completion of the deck installation, the cleanup crew will clean the construction site, remove concrete forms, and perform a final grading of the site.

After the final grade has been conducted, your fence will be reinstalled, and we will verify that access to the pool has been secured.

For the final step in this phase, the project manager will meet with you to go over the current progress of the swimming pool and have you sign off on the necessary walkthrough documents.

POOL CONSTRUCTION CENTERED AROUND YOU

EQUIPMENT, PLUMBING & ELECTRICAL

After the concrete has been completed, the pool equipment will be delivered to the site and verified for accuracy. Once the equipment has been verified; a plumber will begin to install the equipment and connect all necessary piping to the equipment pad.

POOL CONSTRUCTION CENTERED AROUND YOU

INTERIOR FINISH INSTALLATION

After installing the interior finishes, the prep crew will clean and prepare the Guniting surface. Next, the installation crew will install the final plaster finish or mosaic tile, as well as the pool accessories such as lights, returns, and drains.

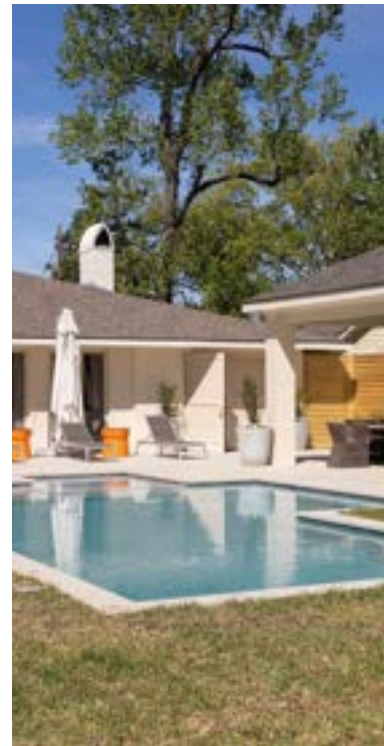

POOL FILL & STARTUP

Upon completion of the interior finish installation, the crew will begin to fill the pool with water. During this time, you will need to monitor the pool as it fills to ensure it does not overflow. As the interior finish cures, the pool will need to be brushed down periodically to remove materials and stains. We recommend brushing the entire pool at least twice per day for fourteen days.

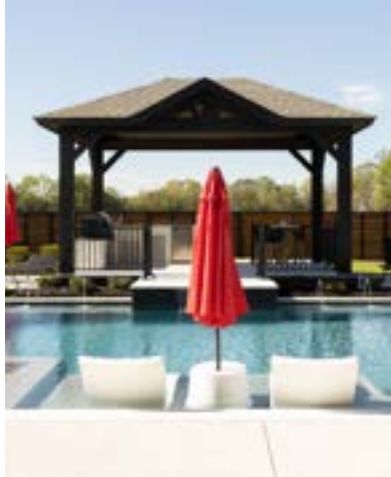

Once the pool has filled with water, the startup team will start the pool equipment and verify that all pool equipment is working properly. The team will test all pumps, valves, filters, and lights, and add chemicals to the pool to help balance the water chemistry. Finally, they will set the pool to run 24 hours a day for several days to keep the water circulating.

The final step in this phase of construction is "Pool School." Pool school is a training where we schedule a pool professional to come to your house and review all the pool equipment and go over the procedures necessary for you to be able to properly use and maintain your new pool.

We will check back in with you after all final inspections have been closed. At this time, we will confirm that the pool is functioning properly and that you are 100% satisfied. We will also review how to clean your skimmers, test your water chemistry, answer any questions, and review any additional information needed.

TESTIMONIALS

DUPLESSIS BUILDERS

WHAT PEOPLE ARE SAYING ABOUT US

“

Duplessis Builders has done amazing work in our backyard. We are beyond pleased with how everything has turned out. From a custom pool design that they came up with, to adding in a hot tub late in the design process, to bringing an outdoor fireplace dream to life, and then beautiful landscaping to tie it all in together. Derek was wonderful to work with, answering all of our questions and listening to all of our ideas to ensure we got the beautiful backyard we envisioned.

”

-Denise Carter

“

Derek's professionalism is beyond great. The communication is always on point. Any concerns we had were always addressed and taken care of. Derek and his team are extremely professional and super respectful. We had an amazing pool build with Duplessis!!!

”

-Jenna Duhe

“

*“Positive: Professionalism, Punctuality, Quality, Responsiveness, Value
Thank you again, Derek, Dawn, and the entire Duplessis Team for providing us with a top-notch pool-building experience! Your level of professionalism and work ethic are to be commended and are greatly appreciated by our family and neighbors! Our experience was truly the best from the beginning to the end!*

If you want to work with great designers, consultants, builders, and a company that truly appreciates you as a client then choose Duplessis Builders!!!

Ps...Best part, we have so many favorite spots around the pool to choose from to enjoy our days!!! Great conversations, fun, games, relaxing afternoons and many memories are in our future, for all seasons!!!

”

-S Hayes

TESTIMONIALS

“

I am writing to express our immense satisfaction with the new pool and pool house your team recently completed for us. The quality of craftsmanship, attention to detail, and professionalism displayed throughout the project have far exceeded our expectations.

From the initial consultation to the final touches, every step of the process was handled with the utmost care and expertise. Your design team perfectly captured our vision, creating a stunning outdoor oasis that seamlessly integrates with our home and landscape. The pool itself is not only beautiful but also built to the highest standards of safety and functionality. The pool house, with its elegant design and superior materials, has become a favorite gathering spot for our family and friends.

We also want to commend the dedication and hard work of your construction crew. They were punctual, courteous, and maintained a clean worksite. Any questions or concerns we had were promptly addressed, and the project was completed on schedule, which is a testament to your team's excellent project management skills.

Overall, our experience with Duplessis Builders has been nothing short of exceptional. We are thrilled with the final result and are already enjoying countless hours of relaxation and entertainment in our new space. We will not hesitate to recommend your services to anyone looking for high-quality construction and design.

Thank you once again for making our dream pool and pool house a reality. ”

-Kelly Cortez

“

This company was by far the easiest and most pleasant contractors that I have ever dealt with. They are still so responsive to all of my questions and any issue. If I had it to do all over again, I would definitely use Duplessis Builders again. We're very happy with our investment. ”

-Nakeitha Thomas

“

Duplessis did an amazing job. The project manager was always on site, including the owner himself. My phone calls were always answered. The pool was finished in a timely manner. The layout, lighting, and design are magical. Our pool looks amazing.”

-Ashley Ray

TESTIMONIALS

“

Derek with Duplessis Builders was nothing short of amazing!! He and his team are by far the most professional we have ever dealt with as far as contractors go. His eye for perfection is next to none. Their main concern is to finish your build even better than you would envision. Some people say pool builds are a nightmare but with Duplessis that was NOT the case!!! Great company with great people and a passion for pool building.”

-Jenna Schexnayder

“

Duplessis Builders did a great job! The finished product is beautiful. What has been impressive too, is the post-construction responsiveness and care regarding any questions, pool management, and any minor punch-outs. Great group to work with if you are in the market!”

-Bobby Franzo

“

Duplessis Builders has the best service and quality around! I highly recommend them for all your pool or outdoor needs. Derek is always quick responding to any questions or services I need.”

-S Hayes

“

Excellent to work with from start to finish on our new pool. Dawn was great helping us get the pool and water features we wanted to fit in our backyard. The construction process went smoothly, and Derek and his crews got the job done sooner than expected. After the job was complete, Derek always responds quickly with our questions. We had an issue recently with the pool equipment and they came out that day and repaired the problem. Quality work and professionalism from their team. I highly recommend Duplessis Builders for your new pool.”

-Brandon Bellard

TESTIMONIALS

“

Hands down the BEST pool builder in the business. From designing our dream pool, to executing and delivering the finished product, We could not be Happier. The level of customer service and Quality that we have experienced with Duplessis Builders is unmatched. They kept us informed throughout the entire process and exceeded ALL of our expectations. We interviewed at least a dozen pool builders before choosing. Duplessis is the ONLY company who made us feel confident knowing that they will stand behind their work and make any wrong right. Just like with any other building project, we had a few hiccups along the way. However, I am extremely Thankful that we chose Duplessis because they worked through every situation and made us 100% happy. If we ever have the opportunity to build another pool Duplessis will definitely be our one and only choice.

”

-Johnette Tolliver

“

We had an amazing experience with Duplessis Builders. After interviewing three different pool companies, we felt most comfortable with them, and it turned out to be the best decision. The design team was incredibly patient and helpful in assisting us with picking out the perfect pool finishes (shoutout to Dawn and Derek's daughter!). The owner, Derek, is top-notch, ensuring that every aspect of the work is done right. He personally approves all the work and insists on redoing anything that doesn't meet his high standards. His team takes their time to deliver quality results and offers the best warranty in the area. Even after the build, they've been incredibly responsive to all our questions. We've been in the pool every weekend, and it's truly been the best decision! I can't say enough great things about the owner and his team!

”

-Melissa Polland

“

Wow!! From design process to the day they told us we are free to jump in these guys have been a dream to work with. They went way above and beyond for us. We are super happy we chose them to build our dream pool. We would 100% choose them for any future projects.

”

-Jeff Tucker

TESTIMONIALS

“

Derek and his team did a great job on our pool from the first meeting, custom design, to the construction of our pool and spa. I highly recommend Duplessis Builders!”

-Robby Moore

“

We had a great experience with Duplessis building our pool. We interviewed 9 different pool builders and we're very happy we chose Duplessis. Our pool turned out great, they did it within the time frame they told us they would, they cleaned up the usual construction mess (that was a huge bonus to us - we did not expect that) and their service after the completion has been great, too! I've heard a lot of horror stories about pool builders, but you'll be safe with these guys. I wish I could give them more than five stars. They deserve it.”

-Cori Rodgers

“

EXTREMELY SATISFIED!! Starting with Dawn - pool information and design and then Todd and ALL of the builders, I've not seen so much attention given to 'detail'. Kind, courteous, professional, prompt, knowledgeable. Love our salt water, gunite pool. And handicap lift installed. Highly Recommend. OK, Time to go swimming!!!”

-Donald Brown

“

They did an amazing job with my pool. Listened to everything I wanted and made it happen!”

-Stephanie Rubio

“

We are extremely happy with our pool and overall experience. Derek always goes the extra mile and works with excellence!”

-Kayli Mayeaux

TESTIMONIALS

“

Duplessis Pools did a fantastic job transforming our pool from a vinyl liner to a gunite pool in an existing screened in closed area. We have totally enjoyed our renovation! They were also timely in addressing getting a part that needed replacing under warranty a year later. We highly recommend this company and also having a consultation with Derek- the owner in the planning stages. He is extremely knowledgeable!

”

-DeEtte Dearmond

“

Duplessis Builders is the best!! They built us the most amazing beautiful pool and spa. From our first meeting to project completion they have been highly professional and kept us informed. They do things right! Do yourself a favor and give them a call if you are ready to build that backyard oasis

”

-Linda Labure

“

We love our pool from Duplessis! We also enjoyed all the people and involved in the design, construction and maintenance consulting. We 100% recommend them!

”

-Rebekah Ayer

“

Dawn at Duplessis Builders exceeded my expectations by going above and beyond to assist me, even though I wasn't a customer of Duplessis Pools. Her dedication and expertise in pool materials, pricing, and style were evident as she generously provided guidance in choosing the perfect design. Highly commend her exceptional service!

”

START DREAMING IN COLOR.

Create the ultimate pool and backyard experience with ColorLogic® lights.

ColorLogic lighting lets you create any backyard ambiance you want, while saving you up to 86% on energy costs. Available in a variety of sizes, it's the easy way to turn any pool into paradise.

Universal ColorLogic LED pool and spa lights retrofit virtually any existing pool or spa while delivering best-in-class performance and illumination for truly vivid color.

ColorLogic 320 & 160 LED lights are perfect for low-profile pool and spa lighting or as accent lighting in landscaping or water features.

ColorLogic 120V LED pool bulbs retrofit most pool light fixtures for a total transformation in seconds.

ColorLogic 80 LED lights can be used wet or dry to illuminate hard-to-reach areas like steps, water features, landscaping, decking, sun shelves, waterfalls and more.

DISCOVER THE SPECTRUM OF POSSIBILITIES.

ColorLogic® LED lights come with 10 fixed colors and 7 color-changing light shows, plus 10 additional options when paired with automation, so it's easy to set the mood for any occasion.

FIXED COLORS (10)

PROGRAMMED LIGHT SHOWS (7)

Additional colors available when paired with Hayward® Omni® automation (10):

COLORLOGIC & CRYSTALOGIC® LED LIGHTS

Available in 30, 50, 100, and 150 ft. cord lengths. The 'XXX' on the end of the SKU denotes length.

HAYWARD
We Build Better.™

COLOR AT YOUR FINGERTIPS.

The ColorLogic Light Controller puts the power of vibrant LED lighting anywhere you want it. Easily installed over any existing light switch, it lets you choose the perfect color for your pool from right inside your home using the convenient dial and preview window.

EVEN MORE OPTIONS WITH OMNI® AUTOMATION.

Access additional capabilities with OmniDirect Mode™ by pairing any low-voltage ColorLogic standalone light with Omni automation systems and the OmniLogic app. OmniDirect Mode offers:

- » Instant navigation to desired colors or light shows (no more cycling through every option)
- » Dimming capabilities (20% increments)
- » Speed adjustment for light shows
- » Access to 10 additional colors for increased customization opportunities (special occasions, sports teams, school colors and more)

OmniPL®

Smart Pool & Spa Control

VERSATILE CONTROL WITH
UNMATCHED VALUE

EXPERT LINE®

ONLY FROM POOL PROS

3+ YEAR PARTS & LABOR WARRANTIES*

*When sold by a Totally Hayward® Partner. Excludes, other terms and conditions may apply—visit hayward.com/expert for details.

THE CONTROL YOU WANT AT A PRICE THAT WORKS.

Total pool and spa control shouldn't consume all of your budget. That's why Hayward offers a broad range of OmniPL® options—so you can choose the features you need, and only pay for the automation you want. Designed to offer the same high-end capabilities as our industry-leading OmniLogic® system, and now 40% smaller, OmniPL brings control for variable-speed pumps, salt systems, color lighting and more to any mid-range pool build or renovation.

Salt system compatibility

either includes salt cell (PLUS-models) or is salt-ready for optional cell (S-models)

External touchscreen display with 15-ft cord for flexible installation and access

Compatible with all OmniLogic remotes for maximum control versatility

OmniDirect Mode™ supports ColorLogic® LED lighting with 20 color options, 7 exclusive shows and precise control of dimming, speed and more

Scalable modular relay system comes with 4 relays but can be easily upgraded to 6 or 8

Models with no sub panel are now available for dealers pairing it to an existing sub panel

OmniLogic app gives W-models industry-leading mobile control

UNBEATABLE VALUE

With robust features at an accessible price, and an expandable design that grows with pool owners' backyards, OmniPL is the total control package for any pool or spa.

CONTROLS IT ALL

Designed to control up to 8 variable-speed pumps, color lighting, a salt system (S/PLUS-models only) and more, OmniPL offers full-featured management of any pool.

VOICE CONTROL

W-models let pool owners control their backyards through voice control devices like Amazon® Alexa® or Google Home®

AquaRite® S3

Salt Chlorination Systems

SUPERIOR SALT CHLORINATION
WITH BUILT-IN POOL CONTROL

EXPERT LINE®

ONLY FROM POOL PROS

3+ YEAR PARTS & LABOR WARRANTIES*

*When sold by a Totally Hayward® Partner. Exclusions, other terms, and conditions may apply—visit hayward.com/expert for details.

SALT CHLORINATION PLUS BUILT-IN CONTROL: THE SMARTEST WAY TO UPGRADE.

AquaRite® S3 offers all the benefits of silky-smooth water you'd expect from the #1 brand in salt water pools, along with versatile pool and spa control. With two model options and easy-to-add accessories, AquaRite S3 is more than superior salt chlorination—it's advanced sanitization and automation that grows with any pool.

1 START WITH SUPERIOR SALT WATER

AquaRite S3 automatically converts dissolved salt into a virtually endless supply of chlorine for perfectly sanitized pool water. Experience softer, silkier pool water that won't irritate eyes, dry out skin or fade fabrics—all while reducing chlorine costs by up to 50%.

2 CHOOSE THE LEVEL OF POOL & SPA CONTROL

AquaRite S3 offers basic control over salt chlorination, a heater and a variable-speed pump. AquaRite S3 Omni® gives you advanced control over pool and spa elements like water features, lights, cleaners and more from anywhere with the intuitive OmniLogic® app.

3 ADD ON ACCESSORIES (ANY TIME YOU WANT)

When you start with AquaRite S3, what you create is up to you. The system can be built upon at any time with easy-to-add accessories from smart relays to pH sensing to WiFi connectivity and more.

AQUARITE S3

Superior salt chlorination plus control of chlorine output, a heater and a variable-speed pump via the convenient on-unit display, with the ability to upgrade to Omni if desired [AQRS30MNKIT].

Features a clear cell for easy inspection

AQUARITE S3 OMNI

Superior salt chlorination plus full control of virtually any pool feature via the Omni control panel, the OmniLogic app and voice control devices including Amazon® Alexa® and Google Home®.

Features a clear cell for easy inspection

TriStar® VS 950

Variable-Speed Pump

SIMPLE INSTALLATION WITH
QUIETER-THAN-EVER PERFORMANCE

EXPERT LINE™

ONLY FROM POOL PROS

3+ YEAR PARTS & LABOR WARRANTIES*

*When sold by a Totally Hayward® Partner. Exclusions, other terms and conditions may apply — visit hayward.com/expert for details.

No-rib strainer basket with see-through cover ensures easy debris removal

Upgraded motor drive delivers 30% quieter high-speed operation than other models

Advanced hydraulic design provides ample power to replace most high-performance pumps up to 3 HP

EXPERT LINE[®]
ONLY FROM POOL PROS

Wall-mountable touchpad control can be rotated in four directions

Side and rear conduit entry accommodate both high and low voltage connections for simple installation

Permanent magnet, totally enclosed fan-cooled motor offers more efficient operation and long-lasting reliability

INDUSTRY-LEADING ENERGY EFFICIENCY

As a member of the TriStar[®] VS family—the most energy-efficient pumps in their class—TriStar VS 950 saves pool owners up to \$1,500 per year. Its ENERGY STAR rating means local energy rebates may apply, too.

DESIGNED FOR DURABILITY

Built with a chemical-resistant Viton[®] seal and accompanied by a 4-year extended warranty, TriStar VS 950 offers powerful corrosion protection for years of reliable performance.

SEAMLESS RETROFITTING

With dual-voltage capabilities, two pump base options and 2" x 2 1/2" CPVC union connections, TriStar VS 950 is easy to install in both new and existing pool pads and doesn't require costly rewiring.

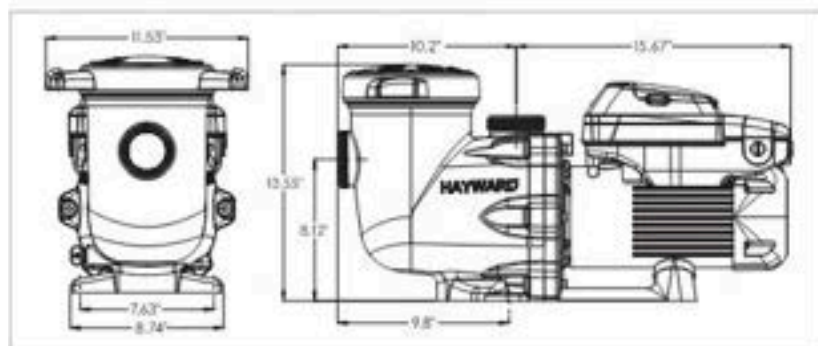

SPECIFICATIONS

MODEL NUMBER	TOTAL HP	VOLTAGE	WEIGHTED ENERGY FACTOR (WEF)*	UNION CONNECTIONS	WARRANTY
SP32950VSP	2.7	115V/230V	10.1/7.3	2" x 2.5"	3 years**

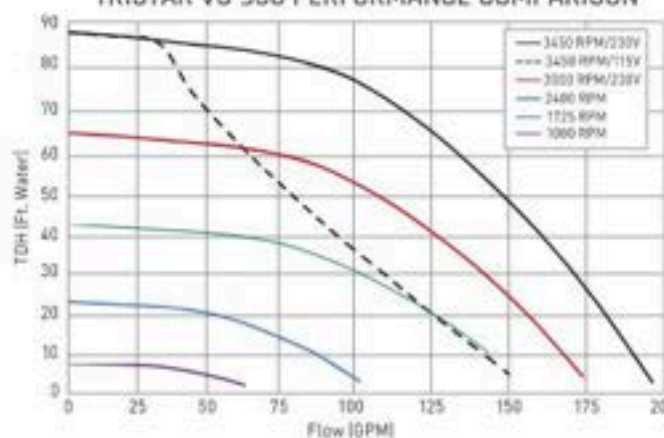

*The higher the weighted energy factor (WEF), the more efficient the pump. Visit hayward.com/regulations for more information.

Universal HC Series

Dual-Fuel Technology Gas Heater

INDUSTRY'S SMALLEST
FOOTPRINT HEATER*

EXPERT LINE™

ONLY FROM POOL PROS

3+ YEAR PARTS & LABOR WARRANTIES**

*Among leading competitive brands.

**When sold by a Totally Hayward® Partner. Exclusions, other terms and conditions may apply — visit hayward.com/expert for details.

MINIMUM FOOTPRINT, MAXIMUM PERFORMANCE.

Universal HC Series dual-fuel technology gas heaters are uniquely engineered for use with Hayward® plumbing adapters, making them an easy drop-in replacement for other heater brands. The heat exchanger is made from cupro nickel for added reliability, and the easy-out air/gas mixing orifice makes propane conversion fast and simple. The industry's smallest footprint* with zero wall clearance fits in even the most compact equipment pads, while the refined gas controls and remote connectivity provide a simple user experience with added service convenience.

Top-access design eliminates the need to remove side panels and kneel during service

Quick-access reversible top easily swaps plumbing from right to left while providing access to gas shutoff, voltage selection and more, all via a single fastener

Cupro nickel heat exchanger protects against water corrosion and natural wear

Compact, lightweight design makes installation easy in any environment

Easy-out mixing orifice allows for easy in-field conversion between natural gas and propane

Low NOx emissions meet clean air quality standards and offer premium heating performance

Integral tie-down connections on the base make for easy hand truck transport with no extra tie-down brackets required

TECHNICAL SPECIFICATIONS

Multi-Element Cartridge Filters

CRYSTAL CLEAR WATER,
SUPER DURABLE DESIGN

EXPERT LINE®

ONLY FROM POOL PROS

3+ YEAR PARTS & LABOR WARRANTIES*

*When sold by a Totally Hayward® Partner. Exclusions, other terms and conditions may apply — visit hayward.com/expert for details.

MAXIMUM FLOW WITH MINIMAL MAINTENANCE.

Featuring an assembly of reusable polyester cartridge elements with precision-engineered cores, SwimClear multi-element cartridge filters provide heavy-duty dirt-holding capacity and extra-long filter cycles. In fact, as the industry's largest filter, the C7030 model offers the longest time possible between cleanings. SwimClear filters' top manifold configuration boasts industry-leading hydraulic performance, facilitating maximum flow through all cartridge elements for superior water clarity and increased energy savings.

Reinforced co-polymer tank
is durable enough to withstand tough environmental conditions

Low-profile tank base makes removal of cartridge elements fast and simple

Heavy-duty, tamper-proof, one-piece clamp provides quick access to internal components without disturbing plumbing connections

CPVC 2" or 2-1/2" union connections provide maximum hydraulic performance with 2" plumbing

SPECIFICATIONS

Filter Type	Cartridge elements: 225, 325, 425, and 525 ft ² [4 cartridge elements], 700 ft ² [8 cartridge elements]
Filter Tank	High-strength, injection-molded durable glass reinforced copolymer
Filter Element	Reinforced polyester
